

Prescription Drug Abuse - Prevention

What our community is doing:

Education: Improving the way prescription painkillers are prescribed can reduce the number of people who misuse, abuse or overdose from these powerful drugs, while making sure patients have access to safe, effective treatment.

Law Enforcement: Florida's pill mill law, which went into effect July 1, 2011, provides law enforcement with the tools necessary to eliminate improper prescribing practices and stop pill mills.

Monitoring: The Florida Prescription Drug Monitoring Program went into effect September 1, 2011. Drug Free Collier provides information to guide practitioners who prescribe and dispense highly-abused prescription drugs.

Disposal: A permanent drug drop is located in various locations in Collier County:

Collier County Sheriff's Office
